ELSEVIER

Journal of Microbiological Methods 29 (1997) 215–216

Journal of Microbiological Methods

Contents of Volume 29

No. 1, January 1997

Insoluble dye substrate for screening and assay of xylan-degrading enzymes
S.-T. Lee and J.J. Lee (Korea) 1

A rapid HPLC protocol for detection of polyols and trehalose
J.E. Hallsworth and N. Magan (UK) 7

Rapid screening for endo-β-1,4-glucanase and endo-β-1,4-mannanase activities and specific measurement using soluble dye-labelled substrates
L. Fülöp and T. Ponyi (Hungary) 15

Comparison of methods for the concentration of bacterioplankton for in situ hybridization
M.J. Lemke, C.J. McNamara and L. G. Leff (USA) 23

Dimethylsulfoxide (DMSO) reduction: a new approach to determine microbial activity in freshwater sediments
C. Griebler (Austria) 31

Qualitative Rhodamine B assay which uses tallow as a substrate for lipolytic obligately anaerobic bacteria
G.N. Jarvis and J.H. Thiele (New Zealand) 41

An efficient procedure to isolate fungal genes from an indexed cosmid library
S. Pöggeler, M. Nowrousian, S. Jacobsen and U. Kück (Germany) 49

Variability in presence–absence scoring of AP PCR fingerprints affects computer matching of bacterial isolates
M.D. Burr and I.L. Pepper (USA) 63

No. 2, May 1997

Research papers

Sensitivity of two-stage PCR amplification for detection of *Mycobacterium tuberculosis* in paraffin-embedded tissues
R. Durmaz, A. Aydın, B. Durmaz, N. Engin Aydın, Bülbin Sunar Akbaşak and S. Günal (Turkey) 69

LAMVAB—A new selective medium for the isolation of lactobacilli from faeces
R. Hartemink, V.R. Domenech and F.M. Rombouts (The Netherlands) 77

An improved colorimetric assay for vicinal diol determination by Ti(III) and its utilization for reporting microbial *O*-demethylation
S.V. Liu (USA) 85

Specific detection of *Campylobacter lari* by PCR
O.A. Oyarzabal, I.V. Wesley, J.M. Barbaree, L.H. Lauerman and D.E. Conner (USA) 97

A head space gas chromatographic approach for the monitoring of the microbial cell activity and the cell viability evaluation
F. Gardini, R. Lanciotti, M. Sinigaglia and M.E. Guerzoni (Italy) 103

Evaluation of an alkaline phosphatase-labeled DNA probe for enumeration of *Vibrio vulnificus* in Gulf Coast oysters
A. DePaola, M.L. Motes, D.W. Cook, J. Veazey, W.E. Garthright and R. Blodgett (USA) 115

Flow cytometry for the intracellular pH measurement of glutamate producing *Corynebacterium glutamicum*
D. Leyval, F. Debay, J.-M. Engasser and J.-L. Goergen (France) 121

Semi-continuous-flow cultures with marine sediment suspensions containing non-polar carbon sources—culture control by a pneumatic sediment suspension dosage system
L. Berthe-Corti, A. Bruns and R. Hulsch (Germany) 129

Short communication

A filter-plate method for the recovery and cultivation of microorganisms utilizing volatile organic compounds
G.T. Kleinheinz and S.T. Bagley (USA) 139

No. 3, June 1997

Research Papers

Use of conventional methods and whole cell hybridization to monitor the microbial response to triethylphosphate
J.W. Santo Domingo, C.J. Berry and T.C. Hazen (USA) 145

An automatic turbidimetric method to screen yeast extracts as fermentation nutrient ingredients
J. Potvin, E. Fonchy, J. Conway and C.P. Champagne (Canada, France) 153

Mechanisms of INT (2-(4-iodophenyl)-3-(4-nitrophenyl)-5-phenyl tetrazolium chloride), and CTC (5-cyano-2,3-ditolyl tetrazolium chloride) reduction in *Escherichia coli* K-12
J.J. Smith and G.A. McFeters (USA) 161

A comparison of two radiometric methods to investigate the biodegradation of phenol by *Candida nitrativorans*
A.E.R. Bastos, G.R. Furlan, V.L. Tornisielo, S.M. Tsai and D.H. Moon (Brazil) 177

DNA fragmentation attested by TUNEL in *Saccharomyces cerevisiae* subjected to photodynamic treatment
V. Carré and M. Guilloton (France) 185

Real-time detection of individual airborne bacteria
R.A. Gieray, P.T.A. Reilly, M. Yang, W.B. Whitten and J.M. Ramsey (USA) 191

A simplified method for isolating outer membrane proteins from *Pasteurella haemolytica* A1
R.E. Brennan, R.E. Corstvet and J.W. McBride (USA) 201

Short communication

A method for high-frequency transformation of *Trichoderma viride*
L. Manczinger, O. Komonyi, Z. Antal and L. Ferenczy (Hungary) 207
